

## SHORT TERM SCIENTIFIC MISSIONS (STSMs)

### 1<sup>st</sup> Grant year

Applicant	From	Host	Amount	Period	No of days	Topic
Joanna Mucha	Magdalena Krol, Warsaw University of Life Science, Poland	Bruno Botta, Sapienza University of Rome, Italy	2500	06-07-2015 to 2015/09/30	87	Research on ferritin based drug-delivery systems
Cristina Marucci	Daniele Passarella, Universita degli Studi di Milano, Italy	Karl-Heinz Altmann, Institute of Pharmaceutical Sciences, Switzerland	2500	01-08-2015 to 05-09-2015	36	Synthesis of an analogue of the natural product doliculide
Gemma Perez Vilaro	Juana Diez, Universitat Pompeu Fabra, Spain	Andrea Merits, Institute of Technology, Estonia	2500	18-01-2016 to 2016-04-15	89	Testing of natural compounds against Chikungunya infection
Christopher Chambers	Vladimir Kren, Center of Biocatalysis and Biotransformation, Czech Republic	Sergio Riva, Istituto di Chimica del Riconoscimento Molecolare, Italy	2500	08-02-2016 to 2016-03-11	33	Bioinspired Enzymatic Radical Oxidative Coupling Using Laccase for the Formation of Hydnocarpin
Paulina Nowak	Jagiellonian University, Kraków, Poland	Cristoph Cremer, Institute of Molecular Biology (IMB), Germany	1100	29-02-2016 to 2016/03/14	15	Superresolution imaging of coronaviral infection in the host cell
Joana Andrade	CBIOS - Research Center for Biosciences and Health Technologies, Portugal	GianMaria Fimia, Istituto Nazionale Per Le Malattie Infettive, Italy	1800	2016-03-01 to 2016-04-30	61	Natural diterpenoids as potential anti-tubercular drugs
Daniel Lucena-Agell	Centro de Investigaciones Biológicas-CSIC, Fernando Diaz, Spain	Michel Steinmetz, Paul Scherrer Institut, Switzerland	2500	06-04-2016 to 2016/04/30	25	Structural characterization of the Aplyronine-Tubulin complex
<b>Total 15 400 EUR</b>
