Address of University or Institute

---

Name of the HOST Professor

Date

We are pleased to accept (Name of Participant) to perform an internship in our laboratory, in (Department of University or Institute), in (University or Institute), as part of the STSM collaborative action.

(Name of Participant) will be part of the group studying (e.g. how cancer stem cells maintain their genome integrity and whether they contribute to tumour relapse after therapy). He/She (will take part in the planning of the experiments), he/she (will perform the experimental assays related to his/her project), he/she (will interpret the results), and he/she (will present her results during the group meetings, as well as in the Institute students' presentation meeting at the end of his/her internship). Furthermore, at the end of his/her internship he/she will write a report describing his/her project, his/her accomplishments and the perspectives of his/her work.

If the work of (Name of Participant) is successful, he/she will be included in the authors of the relevant study both in meeting presentations and in the relevant scientific publications.

With my best regards,

Name of HOST Professor
